

Medicament Delivery Device with Moisture Resistant Coating

Abstract

5 There is described a reservoir means which means is provided with a moisture
resistant coating, the reservoir means is especially adapted to contain a medicament. There is
also described a medicament delivery device which comprises a medicament reservoir, a
medicament delivery passage and a metering member characterised in that the device
includes a surface or surfaces provided with a moisture resistant coating. The device is
10 especially an inhaler, e.g. a dry powder inhaler. A method of treating a respiratory disorder is
also described which comprises administering of a therapeutically effective amount of a
pharmaceutically active agent to a patient suffering from such a disorder.
